

SANITIZED STANDARD

Swiss antimicrobial expertise
since 1935

Certified Producer

ARMOR GUYS
• PROTECTED •

Armor Guys® products go through a special process that uses the Sanitized® treatment. The aim of the Sanitized® hygiene function is the effective treatment of polymers or textiles against bacteria, mold and mildew or household dust mites. Sanitized® products contain biocidal active ingredients that meet all the respective legal and safety-related requirements. This means that we have successfully passed all tests according to the stringent Sanitized® license standard, and are committed to a regular quality control program.
